

Vision[®] USB Power

USB Power

One integrated USB port power outlet can be provided for each sitting of a **Vision®** or **Vision-NU** seating layout. Applicable to various seat model types, including Transverse Front and Rear mounts as shown. Longitudinal, Flip-up (excluding narrow fold), Rear Cross and Barrier applications are also available dependent on the bus layout. Low voltage DC power capable of charging most mobile devices including phones or tablets. This fail-safe, advanced technology USB will shut down in the event of an electrical short circuit and restart automatically once the short is cleared.

Specifications

- 5-Volt / 21-Watt Power Output per Module
- Power "On" Blue LED Indicator Light
- Up to 2.5-Amp Output per Port
- 12/24-Volt DC Power Input
- Reverse Polarity Protected
- FCC Part-15B and SAE J1113-11 Compliant
- IP4 Rating for Water Spray Intrusion
- Weatherproof wiring

Rear Mount

Our Mission

Since 1886, American Seating has set the standard for product design, durability and comfort. Our first transportation seat was introduced in 1931, and today we remain committed to exceeding the expectations of our customers. Our achievements serve as the platform for new and innovative products that are the benchmarks of our industry.
