

# How to use the InSight® transit seat configurator

Build your own InSight transit seat by visiting <http://visualize.americanseating.com/configure/insight>

1. Select the seat type you wish to configure.

2. Select from a variety of components specific to the chosen InSight seat type.

3. Once the desired components are selected, choose from the following buttons:

- **Change View:** A large image including the front and back of the two-passenger seat will display
- **View Details:** Display a list of the selected design options
- **Create PDF:** Download A print-ready PDF file of the selected design options
- **Bookmark:** Save a bookmark of the selected design options
- **Reset:** Remove all of the selected design options
