

Rear-Facing Barrier

Rear-Facing Barrier

The Rear-Facing Barrier with Secura® Lateral Arm, provides an additional option for the mobility aid securement area in city service buses.

Features

- Alternate securement position (beyond forward-facing solutions)
- Belt release located higher than traditional systems to reduce the need for bending
- Fabric matches seating upholstery (unless otherwise specified)
- A fully featured system includes a wall mounted shoulder belt (not shown)
- Rubber resistance band to give automatic return of arm after use

Options

- Frame available in caution yellow powder coat or optional brushed stainless steel
- May be ordered without the arm and/or belts

Compliance

- Contact your American Seating sales representative to determine your specification requirements
